Overview

Swifty is an integrated administrative and booking platform wherein the users are classified into:

1. **Club Coordinators**
2. **General Secretaries (GenSec)**
3. **President, Student Gymkhana (PSG)**
4. **Faculty Advisors (FacAd)**
5. **Associate Dean of Student Affairs (ADSA)**

The roles, multi-tiered approval powers, and facilities provided to each type of user have been highlighted and discussed in detail in the SRS documentation. Additionally, Swifty features a dynamic public calendar that automatically updates to display campus events once their venue bookings have received full administrative approval, keeping the student body informed while maintaining backend security.

The interface of the app is simple and intuitive, ensuring that users will not face any difficulties while tracking requests, booking venues, or managing club finances, and will have a seamless experience. However, if the user is facing some issues navigating the approval pipeline or utilizing the platform, it is recommended that they go through the user manual to help them efficiently utilize the app.

System Requirements

Swifty is a web-based application, and hence the only technical requirement is a modern web browser with an active internet connection. While the platform is accessible across different devices, the complex administrative dashboards, multi-tiered approval workflows, and financial tracking tables are optimized for use on a PC or laptop as opposed to mobile phones. Therefore, users are highly encouraged to access the application on their desktop or laptop computers for the most seamless experience.

The application is currently hosted and live at: https://swifty-tau.vercel.app/

User Credentials

I. Mail IDs

Club Coordinator:

Since the interface is the same for all clubs, we have created a mail ID for just one club for testing.

Music Club: gymkhana.swifty@gmail.com

Password: Interstellar

Authority:

Gensec: gensec.swifty@gmail.com

Password: GENSEC@SWIFTY1

PSG: psg.swifty@gmail.com

Password: interstellar

FacAd:facad.swifty@gmail.com

Password: Facadswifty1234

ADSA: adsa.swifty@gmail.com

Password: adsa1234

II. Login Credentials

Music Club password: music123

GenSec password: admin123

PSG password: psg123

FacAd password: admin123

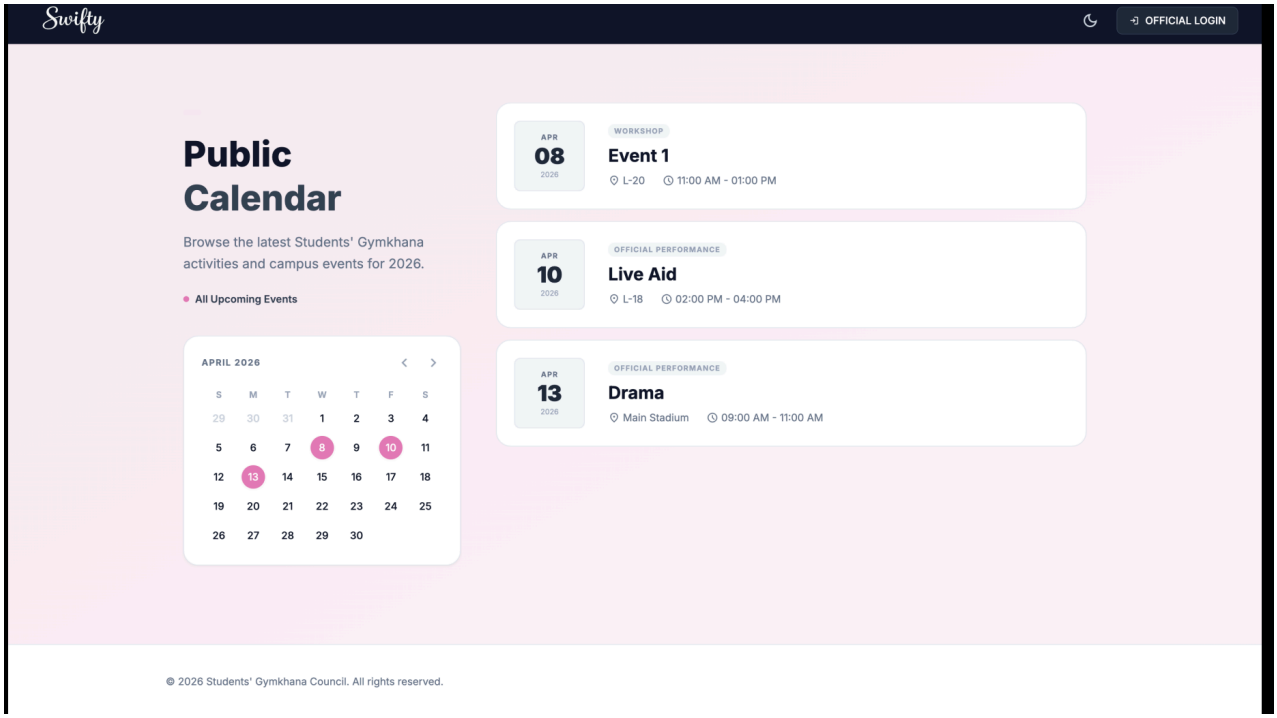
ADSA password: admin123

Functionalities

I. Public Calendar

This is the initial landing page of the site. Here, all club events are displayed, and events of a specific day are displayed on clicking on that date on the calendar on the left.

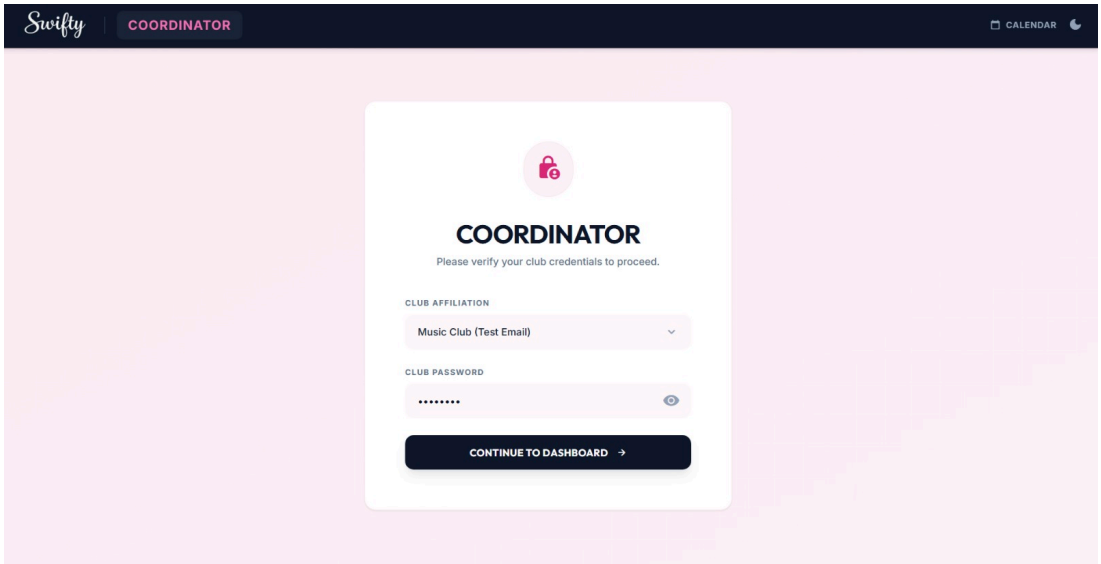
Club coordinators and authorities can navigate to the login page by clicking on the button on the top right.

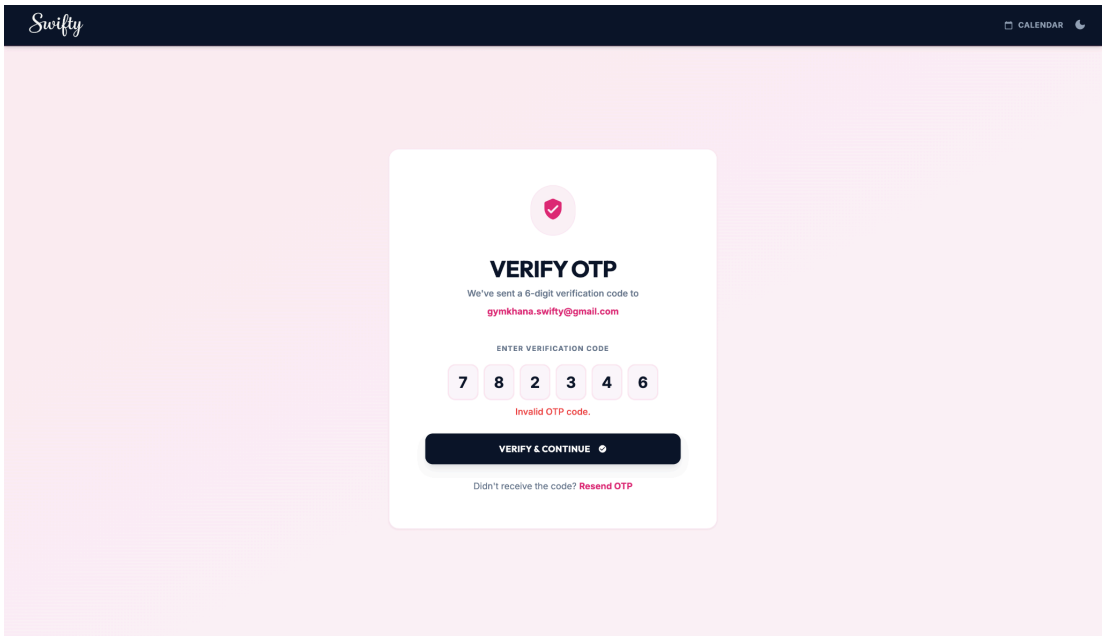


II. User: Club Coordinator

a) Login

The initial page prompts to select the role: Club coordinator or Authority. Select club coordinator and enter. Club coordinators are then redirected to a page where they can select their specific club and enter their password that has been prefixed. If an incorrect password is entered, an error is thrown, else an OTP is sent to the club mail ID, and on correctly input of OTP, the user is redirected to their respective dashboard.



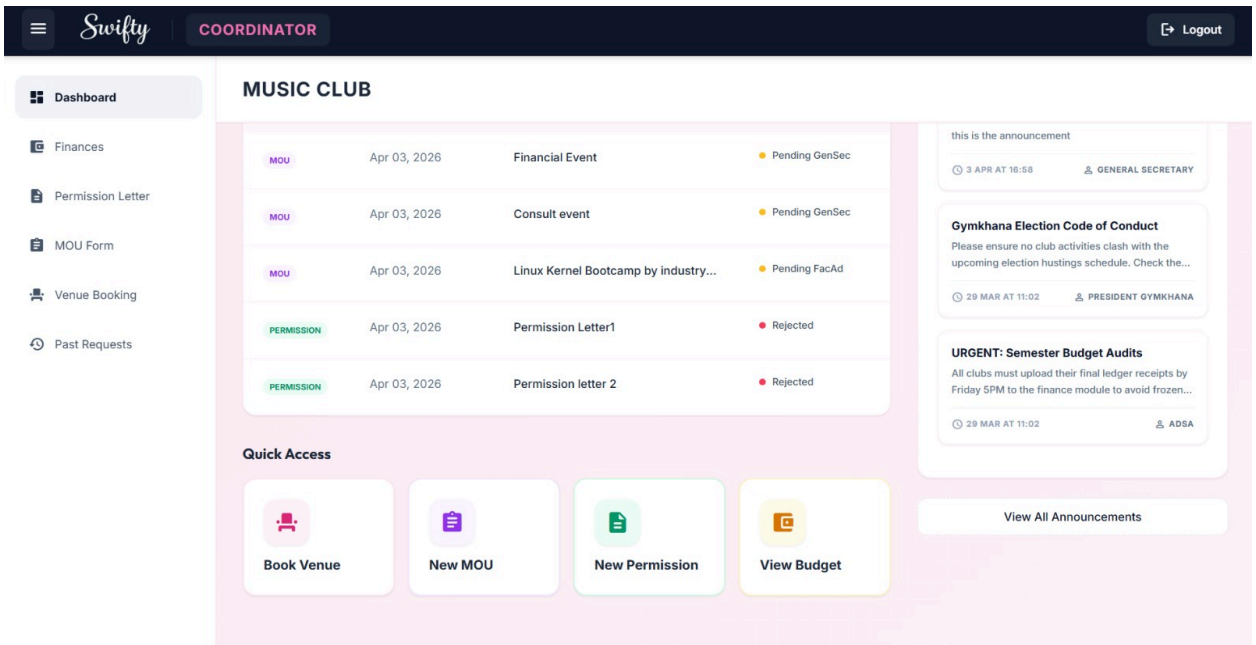


b) Dashboard

This is the landing page once logged in with credentials of a club coordinator.

The recent requests are visible along with their status.

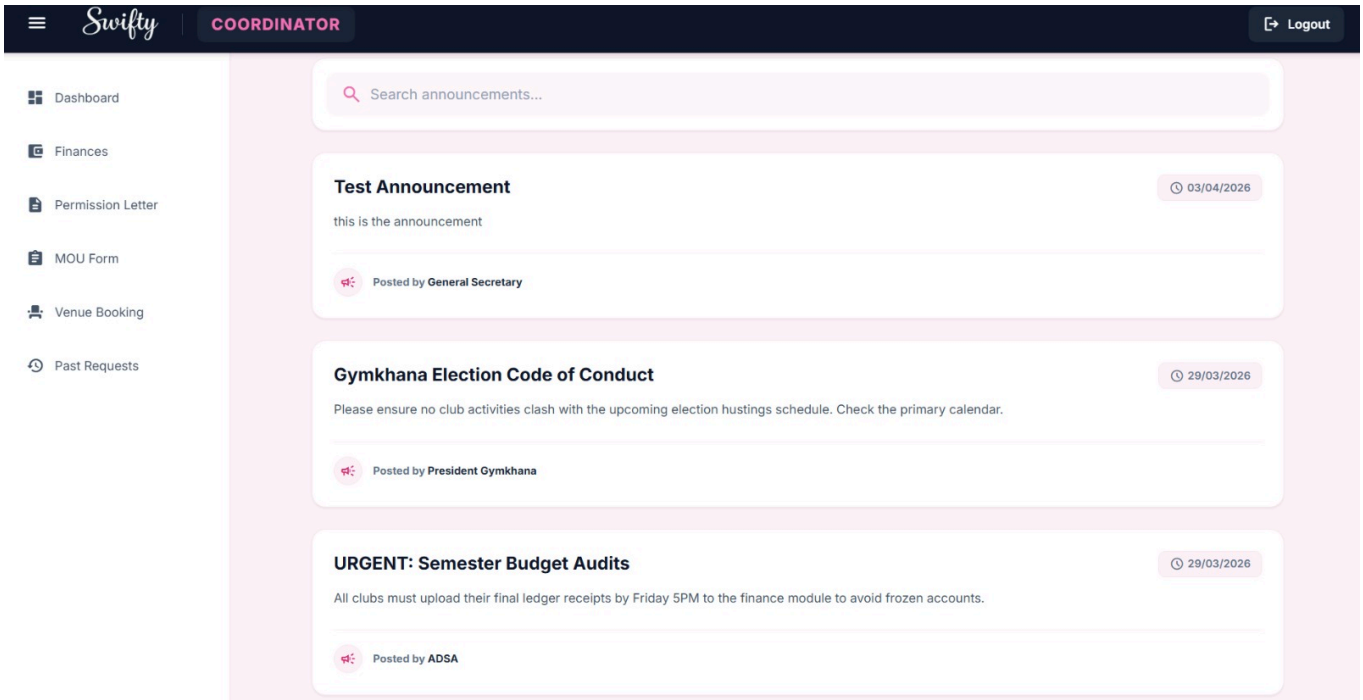
Options for booking venues, creating a new permission letter or MoU, or viewing budget can either be accessed through the Quick Access option at the bottom, or the sidebar menu.



Announcements are visible on the right, with details visible on clicking each. Clicking on “view all announcements” takes you to the announcements page.

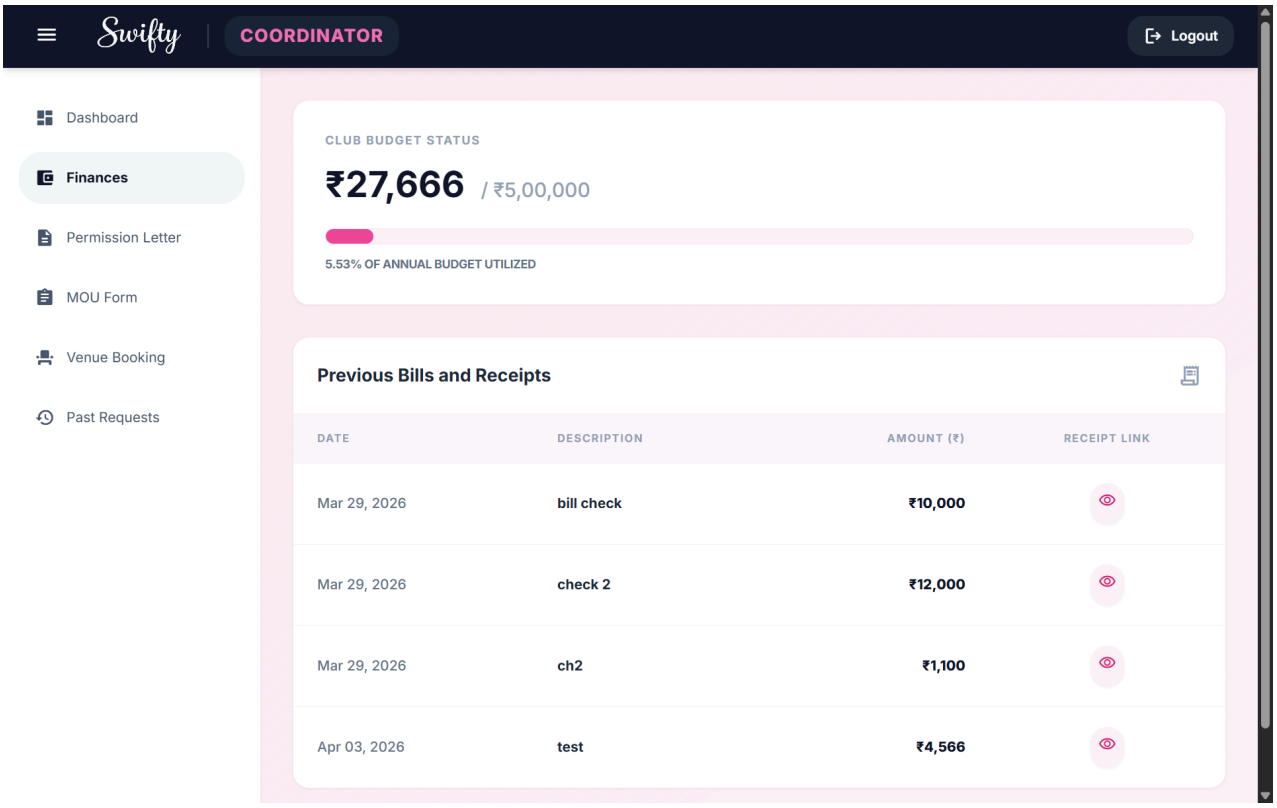
c) Announcements

This page has all announcements and a search bar to filter out using a particular announcement heading.



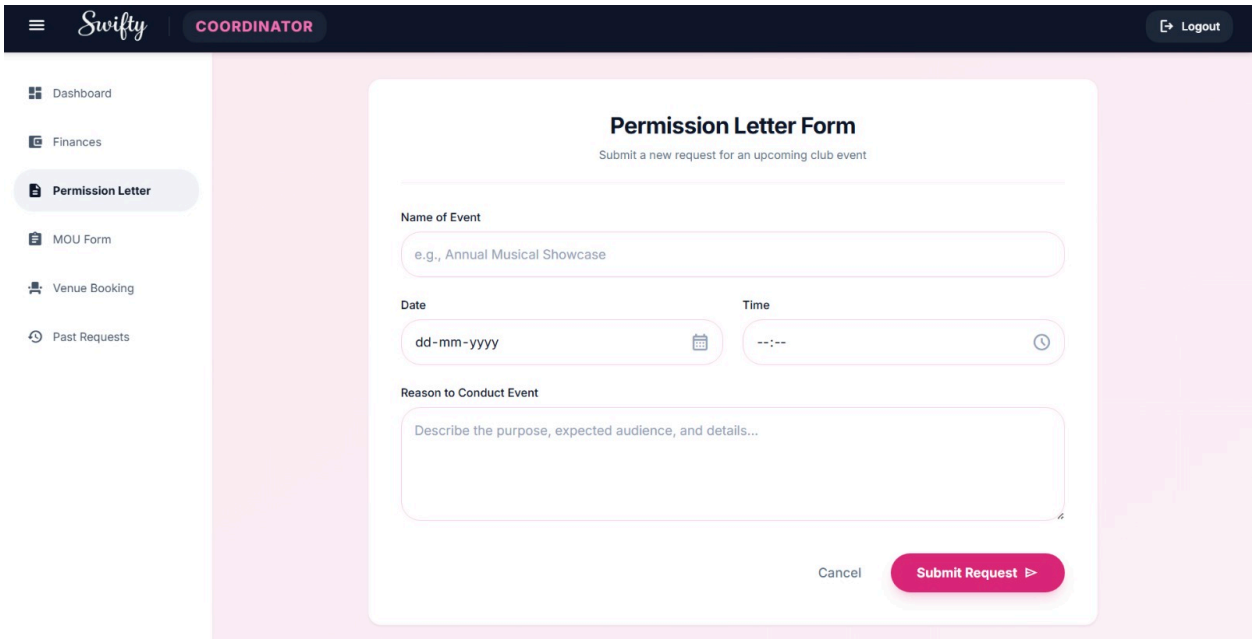
d) Viewing Finances

The coordinator can view budget status, and approved bills uploaded by the authority are shown in a table format with an option to view the receipt pdf.



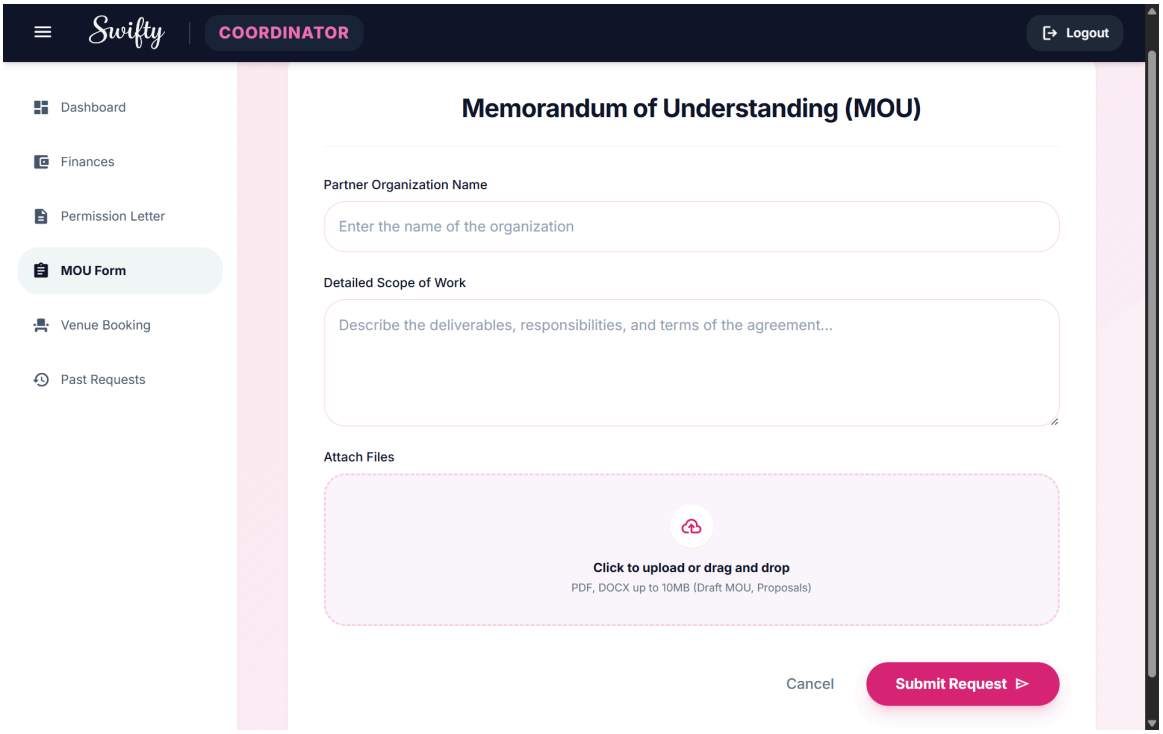
e) Submitting a Permission Letter

The coordinator is presented with the permission letter form and has to fill details of Name of Event, Date, Time and Event. All fields must be filled, else an error is thrown. On submission, the request is sent to GenSec.



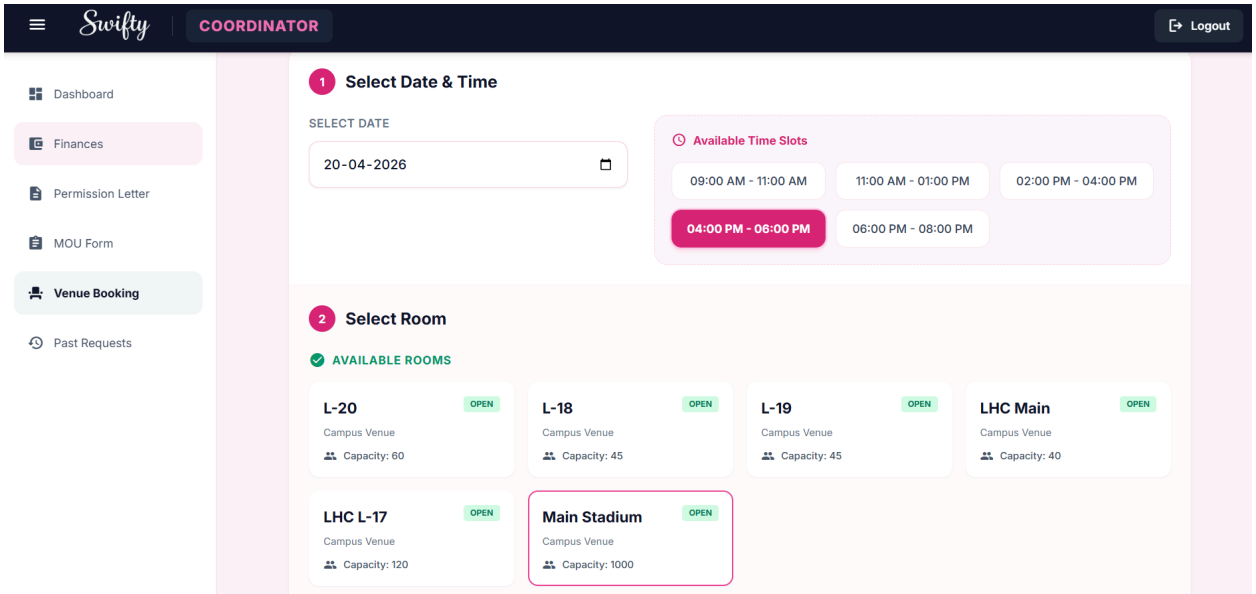
f) Submitting a MoU Form

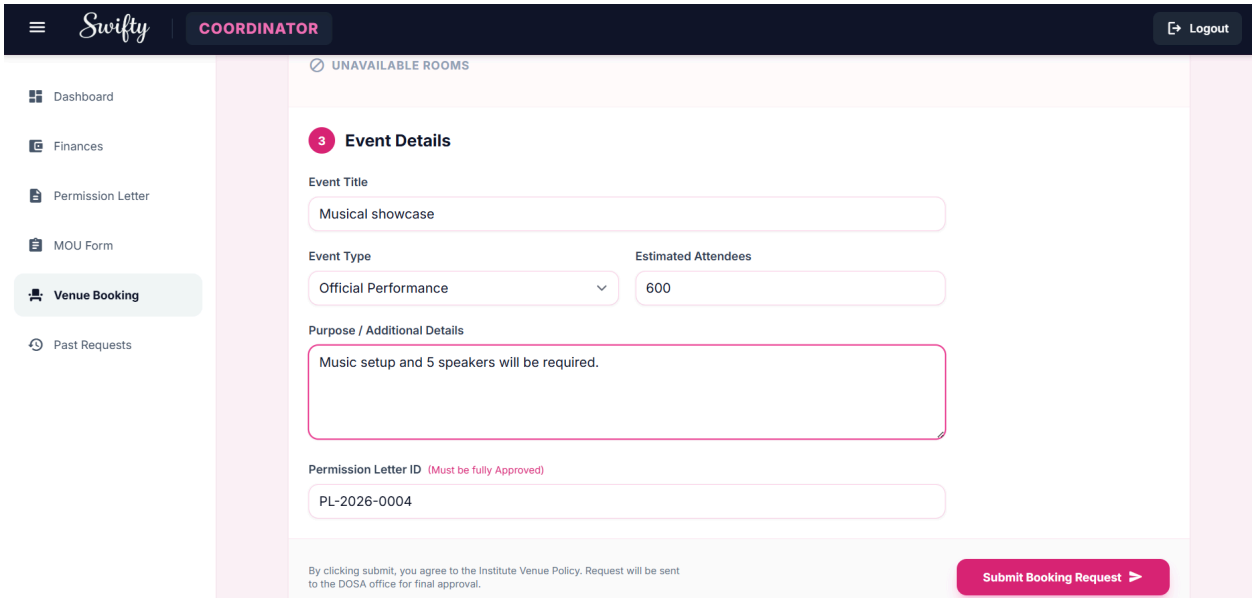
The coordinator is presented with the MoU form and has to fill details of Name of Partner Organization, Detailed Scope of Work, and an option to attach required files. All fields must be filled, else an error is thrown. On submission, the request is sent to GenSec.



g) Venue Booking

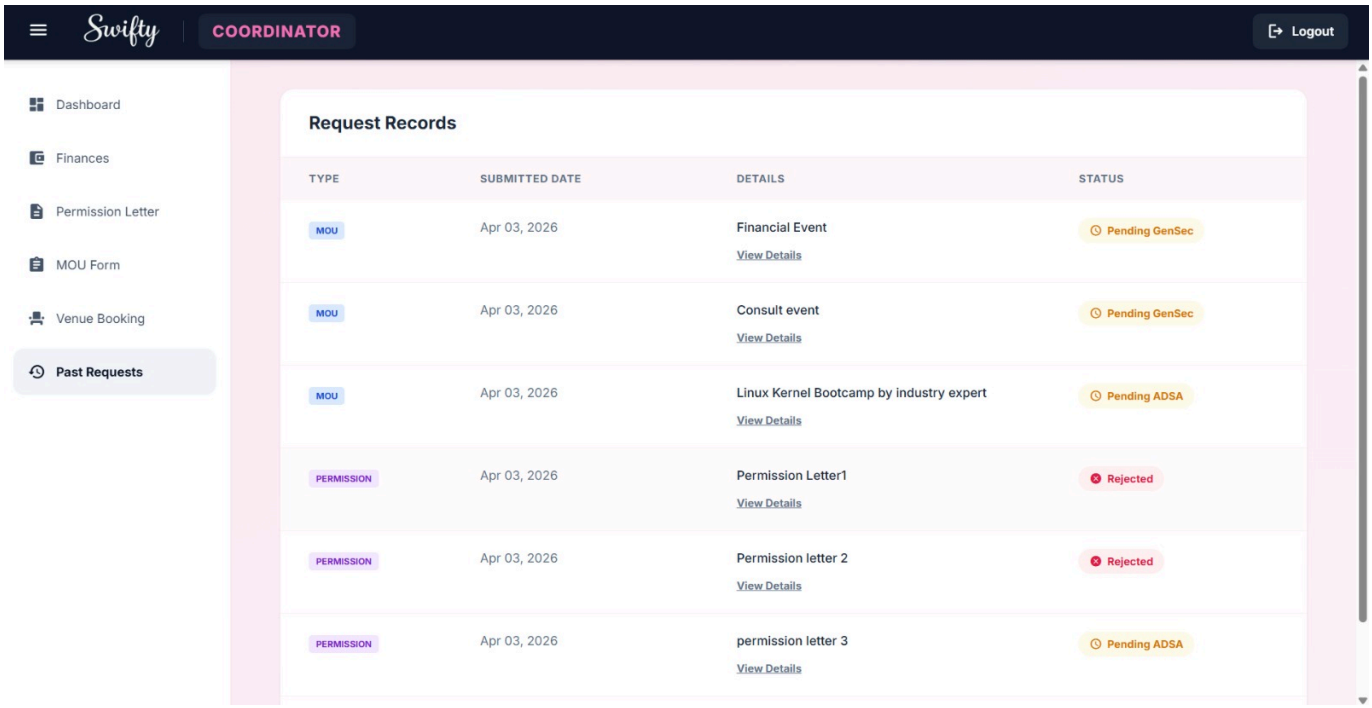
The coordinator is presented with the venue booking form and has to fill details of date, time slot, venue selection, event details, and an approved permission ID. All fields must be filled, else an error is thrown. On submission, the request is sent to GenSec.





h) Viewing Past Requests

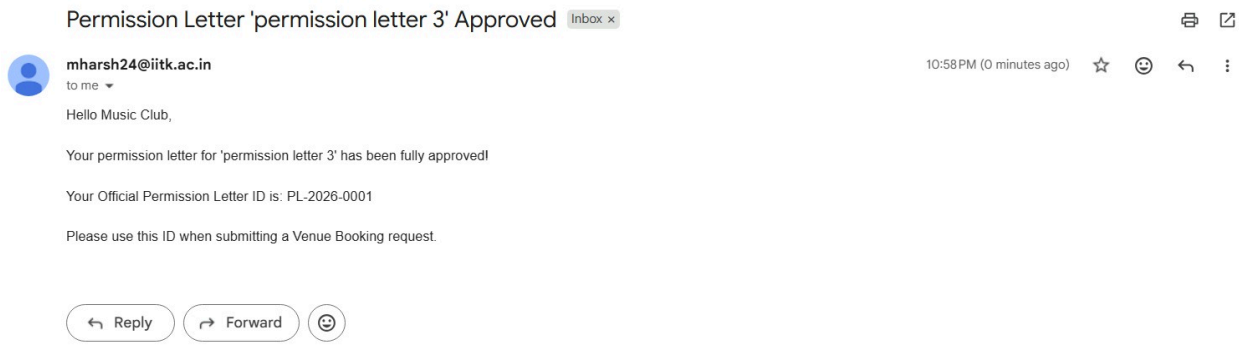
All the past requests can be viewed in a table format along with an option to view details of each request.

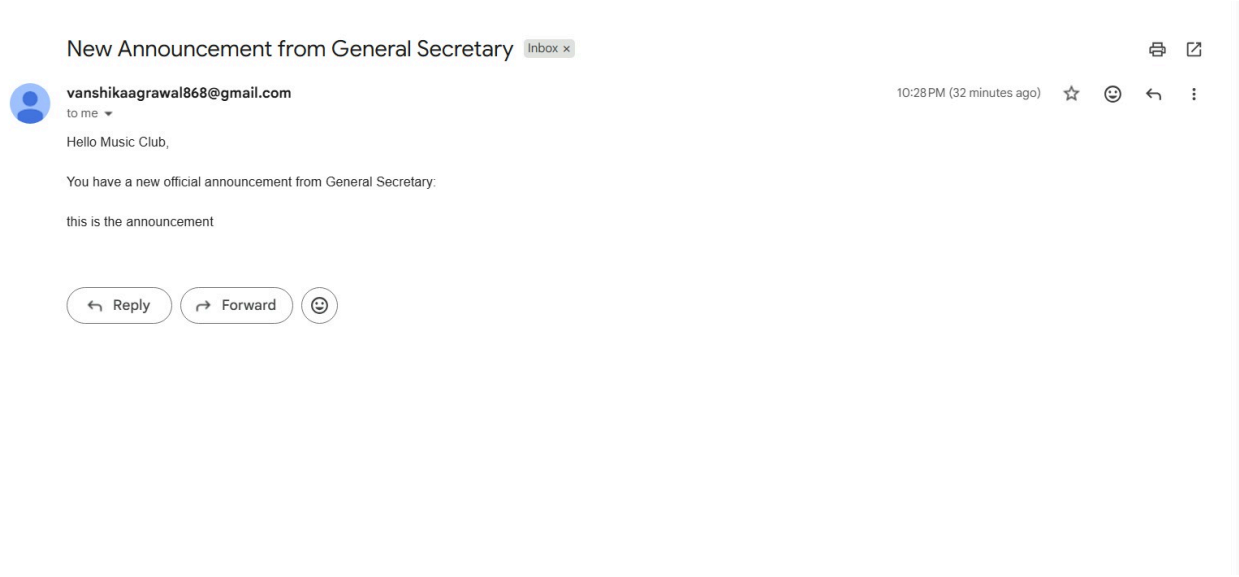


i) Email Notification

On complete approval or rejection of a request, the coordinator is notified by mail.

On receiving an announcement, the coordinator is notified by mail.



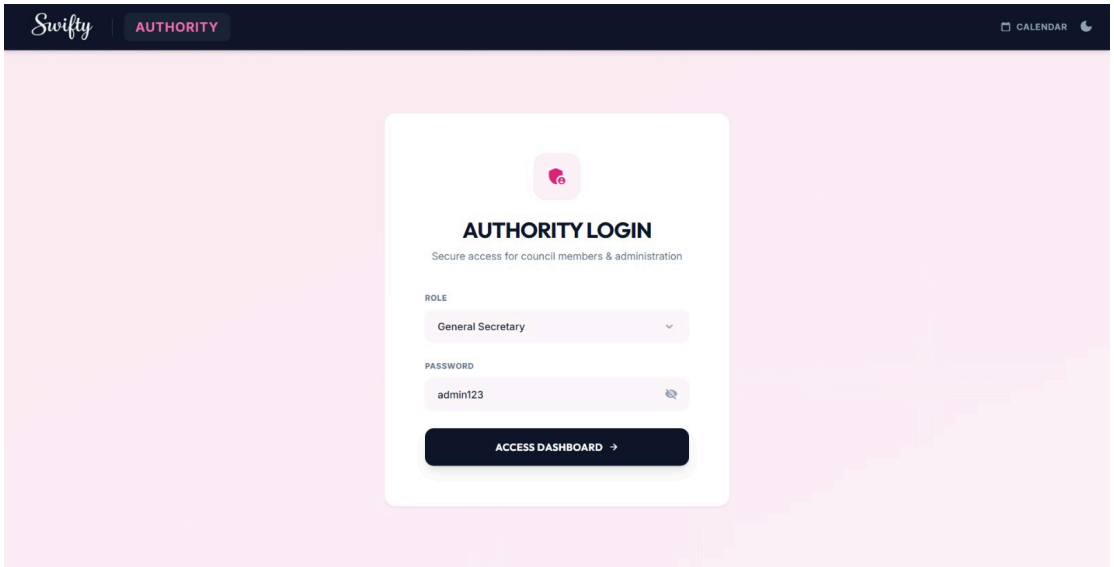


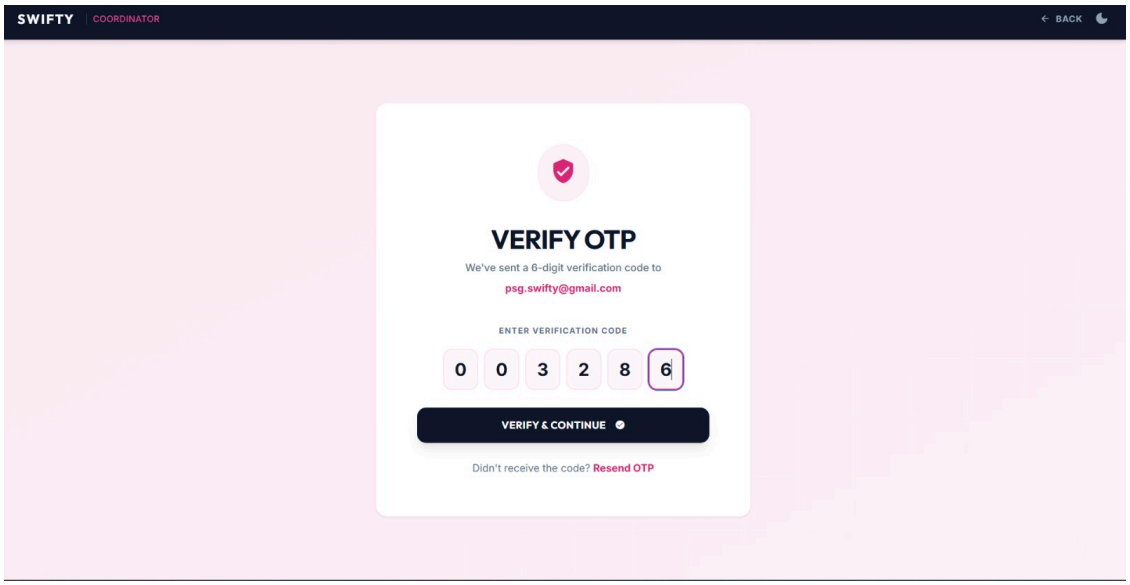
III. User: Authority- Faculty Advisor/ Gensec/ PSG/ ADSA

The interface is the same for all the authorities.

a) Login

The initial page prompts to select the role: club coordinator or authority. Authorities are then redirected to a page where they can select their specific club and enter their password that has been prefixed. If an incorrect password is entered, an error is thrown, else an OTP is sent to the authority mail ID, and on correctly input of OTP, the user is redirected to their respective dashboard.

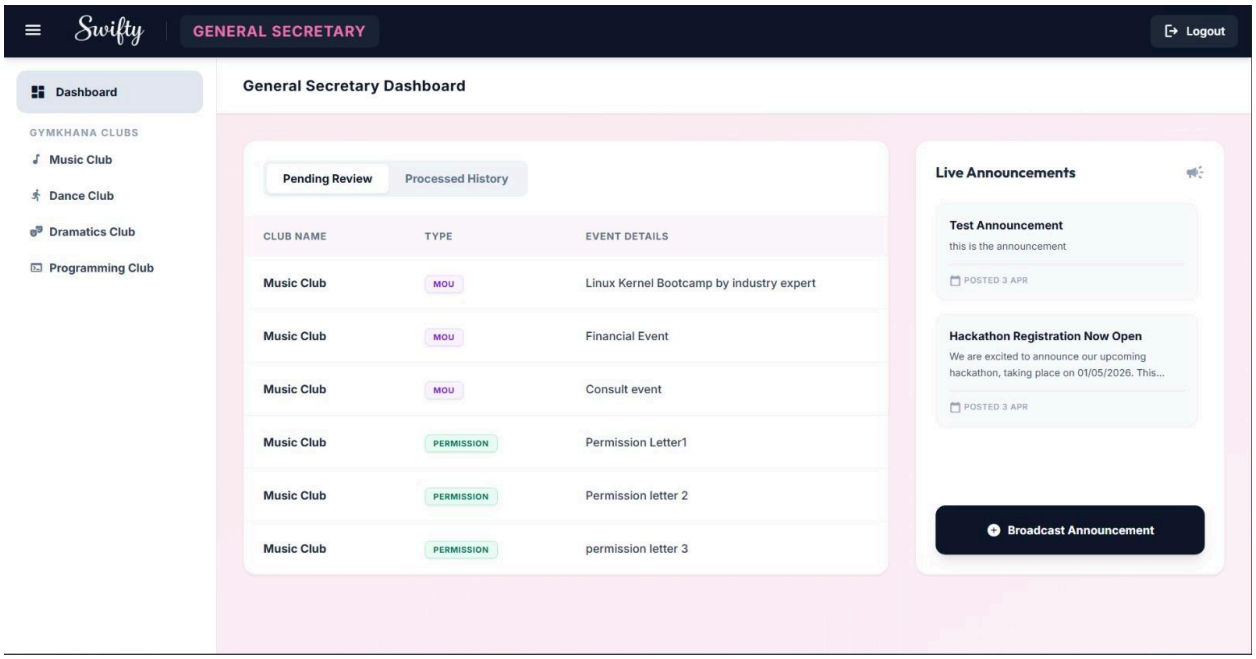




b) Dashboard

This is the landing page once logged in with credentials of an authority.

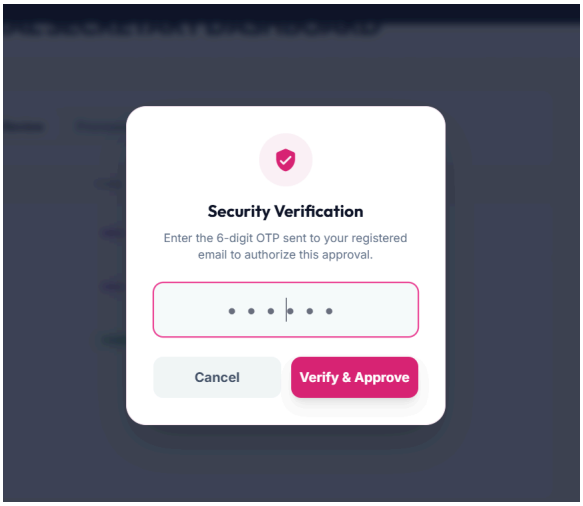
The sidebar menu has each club mentioned, and on navigating to it we get the club details.



c) Request Approval/ Rejection

The pending requests are visible in a table format on the Dashboard, and on clicking each item, details of the request can be viewed, and the option for approve or reject is shown.

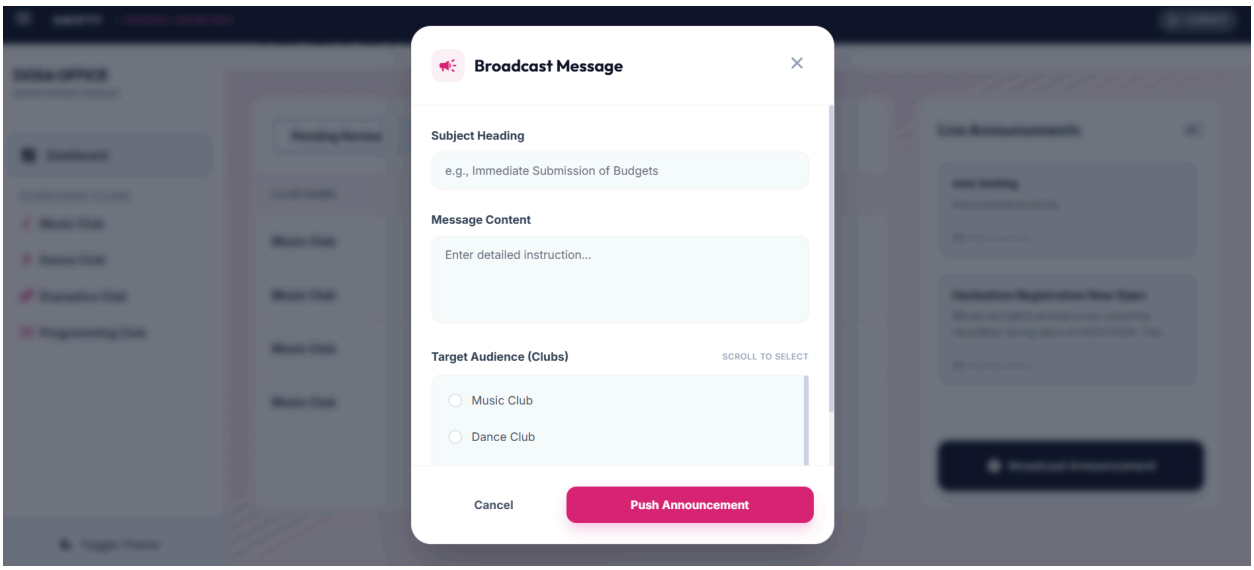
The authority can either approve or reject with an option to add comment. For actions, OTP verification is required. OTP is sent to the mail ID of the authority, and only on inputting the correct OTP, the action on the request is completed. The request status is updated and on approval it is either sent to the next person on the pipeline or it is marked as approved, with an email notification to the coordinator sent.



d) Creating Announcements

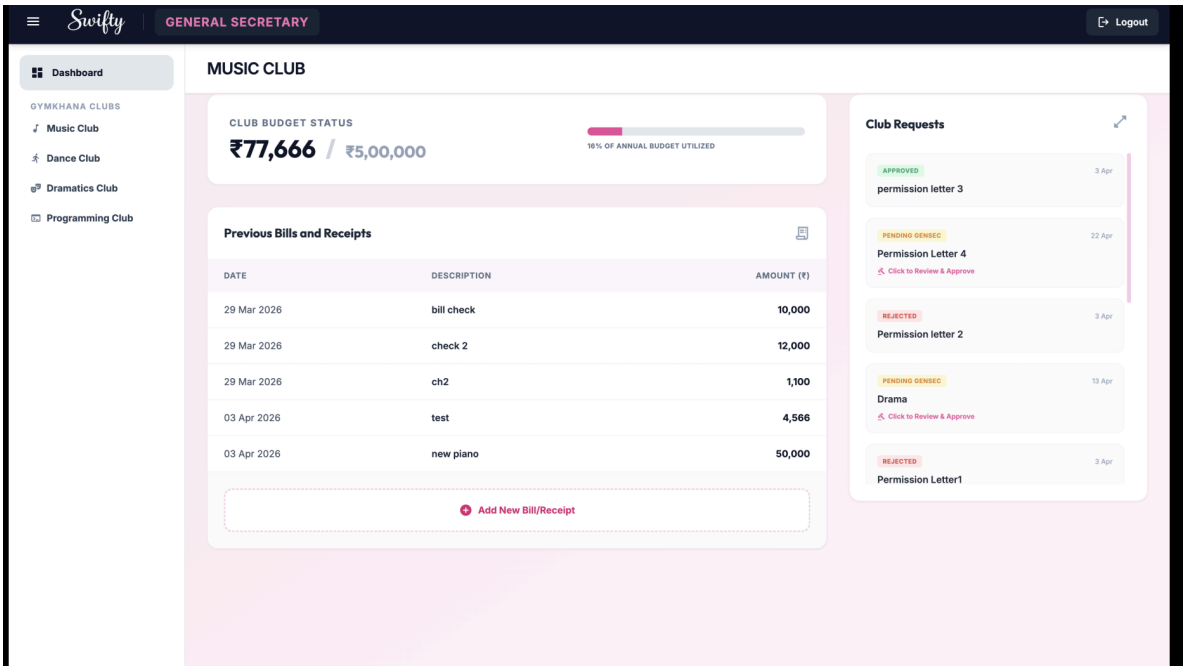
On clicking the ‘broadcast announcement’ button on the dashboard, the authority is presented with a form to fill details of heading, content and target audience.

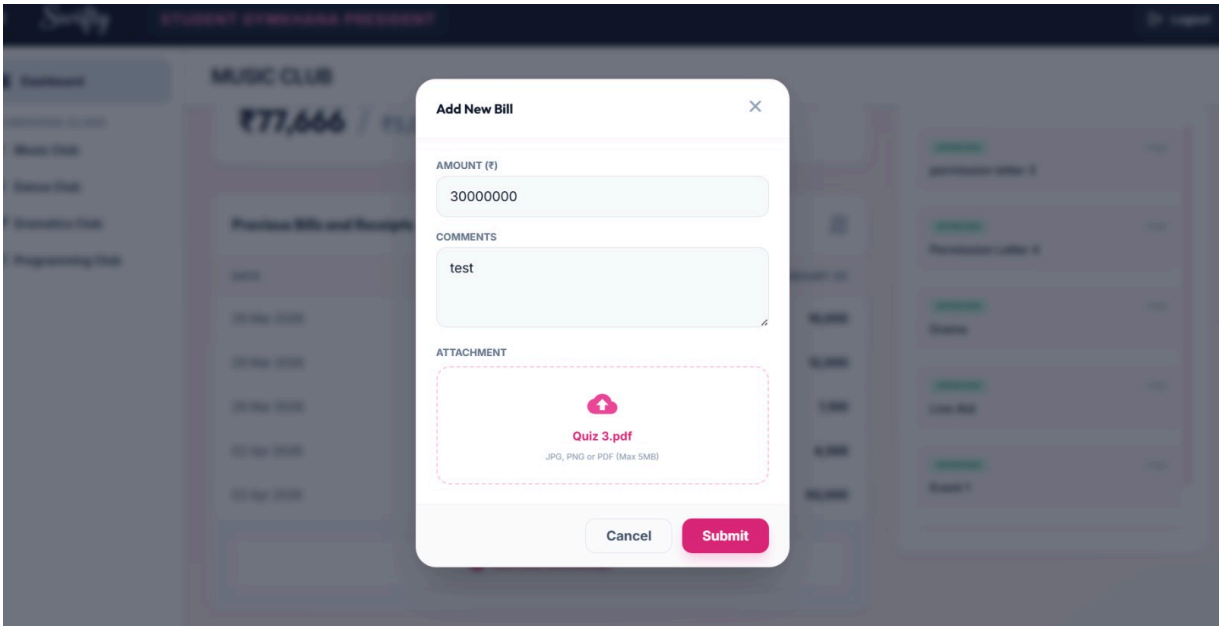
On submission, this announcement is sent to the required club.



e) Viewing Club Details and Uploading Bills

Here, the club budget status and previous requests are visible. There's an option to upload approved bills and receipts, and once done, the amount is deducted from the club's current balance.





IV. Request Pipeline

Submission of request by coordinator → Approval by GenSec → Approval by PSG → Approval by FacAd → Approval by ADSA

- Rejection at any point of the authority pipeline would stop the process and reflect onto the coordinator dashboard that the request has been rejected, and a mail is sent.
- Once completely approved, a mail is sent to the coordinator notifying them of the approval.
- A permission ID is generated for permission requests on complete approval.
- This permission ID is required for submitting venue bookings.
- On complete approval of Venue Booking, the event is displayed on the public calendar page.
